

Having seen the effects of the disease first hand, we've been big supporters of the Leukaemia Foundation for many years. This morning our good friend Paul 'Barney' Barnard, accompanied by Curtis Browning of the QLD Reds, went under the razor and shaved for a cure. Paul is raising money to support patients and their families and to continue the search for a cure for this devastating condition.

We're very proud to support Paul in his efforts and would like to thank you for your continued support.

The Minespec Parts Team
