

CAT D10T FLEET SECURED

SECURE YOUR PARTS BEFORE THEY'RE GONE

CONTACT OUR SALES TEAM

Wishing our customers a great Easter Long Weekend.

Iron is moving fast at Minespec Parts this April. We're dismantling a fleet of CAT D10T dozers at Nebo, QLD, alongside a Komatsu PC2000-8 excavator in Rutherford, NSW and six CAT 785C trucks across our QLD facility.

That's a serious volume of quality used components hitting the floor right now across both states! Every component we dismantle is inspected, cleaned, and presented to a standard you won't find anywhere else in the used parts market.

We take the time to understand our customers' business, and from then on, we support and supply as required to keep your fleet running and your costs down.

Get in touch with our sales team today and secure the parts you need before they're gone.

WHAT'S HAPPENING AT MINESPEC PARTS

DARREN KING
Workshop manager (QLD)

We're thrilled to welcome Darren to the Minespec Parts team as our new QLD Workshop Manager.

With 35 years of experience in the mining industry across Australia and internationally, Darren brings a wealth of knowledge and a solutions-first attitude that fits right in here.

Based in Nebo with his family, he's already hitting the ground running.

Welcome aboard, Darren.
