CAT 789B/C FLEET

DISMANTLING NOW

CHECK IT OUT

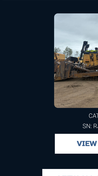

To our valued customers and suppliers,

There's plenty happening at Minespec Parts this November!

We're currently dismantling a fleet of CAT 789 haul trucks, with a huge range of quality used parts and components becoming available soon. Our CAT D10T dismantles are also well underway, with a large portion of the stock already sold. If you're chasing D10T components, now's the time to access your stock you need before they're gone!

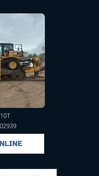

We've also made significant price reductions across our range of reconditioned cylinders, with stock priced to move! We're here to help you find the parts you need to keep your fleet running, so get in touch with our sales team today and shop with Minespec Parts!
